ANHOOD AND THE VIGOR OF YOUT A reatored in four weeks, by Dr. BRORD'S ESSENCE OF LIFE. Br. Bicord (of Paris), after years carnest solicitation, has at length acceded to the earnest requests of the American public, and appointed an Agen in New York for the sale of his valued and highly-prized Essence of Life. This wonderful agent will restore manhood to the most shattered constitutions, whether arising from excesses, the effects of climate, or nature causes. The time required to cure the most inveterate case is four weeks; and if used according to printed instructions, which are very simple, failure is impossible. This life-restoring remedy should be taken by all about to marry, as its effect are permanent. It is acknowledged by the medical press to be the greatest discovery ever made. Its developing powers are miraculous. Successin every case is as certain as that science overthrows is norance. Dr. Ricord's Essence of Life is sold in cases, with full instructions for use, at \$5, or four quantities in one for \$9, and will be sent to any part, carefully packed, on receipt of remittance to his accredited agent.

EYE Ec. 28 Liberty-street, New York

# MANHOOD.

In the young and rising generation, the vegetative powers of life are strong, but in a few years how often the pallid hue, the lack-lustre eye and emaclated form, and the impossibility of application to mertal effort, show its baneful influence. It soon becomes evident to the observer that some depressing incence is checking the development of the body. Orn, amption is talked of, and perhaps the youth is removed on the school and sent into the country. This is one of the worst movements. Removed from ordinary diersions of the ever-changing scenes of the city, the owers of the body too much enfeebled to give zest to ealthful and rural exercise, thoughts are turned inward upon themselves.

If the patient be a female, the approach of the menses i looked for with anxiety, as the first symptom in which Nature is to show her saving power in diffusing the circulation, and visiting the check with the bloom of health. Alasi increase of appetite has grown by what it fed on, nd the energies of the system are prostrated, and the whole economy is deranged. The beautiful and wondering a change from child to woman, is looked for in vain; he parent's heart bleeds in anxiety, and fancies the rave but waiting for its victim.

HELMBOLD'S EXTRACT BUCHU,

For Weakness arising from Excesses or Barly Indisors Attended with the following symptoms:

Attended with the following symptoms:

Indisposition to Exertion, Loss of Power, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Droadfu Horror of Death, Night Sweats, Gold Feet, Wakefuliness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, Often Enormous Appetite with Dyspeptic Symptoms, Hot Hands, Flushing of the Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pain in the Back, Heaviness of the Syelda, Frequently Black Spots flying before the Eyes, with Temporary Suffusion and Loss of Sight, Want of Attenton, Great Mobility, Restlessness, with Horror of Sotety, Nothing Is more desirable to such patients than olitude, and nothing they more dread for Fear of Themelves, no Repose of Manner, no Expansiones, no Specuation, but a kurried transition from one question to nother.

These symptoms, if allowed to go on—which this Me-dicine invariably removes—soon follow Loss of Power, Faintly and Epileptic Fits, in one of which the patient

Fatusty and Epicptic Fits, in one of which the patient may expire.

During the superintendence of Dr. Wilson, at the Bloomingdale Asylum, this sad result occurred to two patients; reason had for a time left ham, ands that is of oplicings. They were of both sense, and a balt wonly years of age.

Who can say that these excesses a not generally strongs on? The records of the Inson Asylums, and the melnicholy deaths by Consumption, bear ample witness to he truth of these assertions. In Lunatio Asylums the most melanoholy exhibition appears. The countenance sections are settingly sodden and quite destitute—neither mirth or rief ever visite it. Should a sound of the voice occur, is rarely articulate.

"With woeful measures wan Despair Low sullen sounds his grief beguiled." Whilst we regret the existence of the above diseases and symptoms, we are prepared to offer an invaluable gift of chemistry for the removal of the consequences—
